

Dear Students and Parents/Guardians,

On behalf of Build a Dream and in partnership with School Boards across Canada, you are invited to **Skilled in STEM (Science, Technology, Engineering, Math) - Keeping the World Moving**, a FREE virtual event taking place on **Tuesday, April 12 from 6:00pm-9:00pm EST** for parents and high school students.

Skilled in STEM: Keeping the World Moving is a trailblazing event that provides the necessary acknowledgment that individuals in skilled trades and STEM careers have been, and still are, heavily relied upon to keep the world moving during the Covid-19 pandemic.

This interactive virtual event will highlight opportunities in a number of careers, along with **Youth Apprenticeship Programs/Pre-apprenticeship** to better assist students to make informed career choices. This event will include careers in:

SKILLED TRADES

Industrial, Construction, Transportation

STEM

Science, Technology, Engineering, Math

Parents play critical roles in the education of their children. This is an opportunity for families to learn collaboratively about the many careers in these growing sectors.

The event features:

- Top industry executives on our first LEVEL UP panel
- Keynote speakers and informative panelists
- Career planning advice by professionals
- FREE care package for the first 500 registrants that includes artisan chocolate
- Games, Prizes, Survey and More!
